I used it while climbing up the mountains and it really helped to feel the moment. Very good.. Should be in the min game as unlockable.. This skin helped me to cover Lara's full body so that I can enjoy playing when my dad is next to me xD. this looks like a nice skin. I like it. I enjoyed wearing it in snowy areas to fit the theme. Although it's only worth it in a bundle. Don't bother buying it individually.. **DLC verdict: Don't get it OR Get it in the bundle with the base game**

**Comment:**

**It is just a new skin which you can change at the camp fires. However, it does not reflect the injuries Lara receives (unlike her default skin) so it is very immersion breaking. But it is part of the GOTY edition so you could get this through buying that version.**

Great skin!!! I bought this because if a hot liberal arts grad student could learn to be kalashnikov gunsmith in a few hours then she could find a coat.
